These are con people of various multi-binary genders (all 72 as I have been told) with a rich mixture of pronouns and an occasional verbs thrown in; they all claim to have insider intel into the coming revaluation and whisper that you might be able see more than 1,000 times

return on your investment(s) funds if you buy Emil's books in bulk (usually) from them or some third-party sites that they assure you that they are honest brokers.
Common sense "Tipster" here to consider that any person who has to tell you that they are honest – they might not be.
Ponder for a moment or two that Emil's complete catalog is available directly from WWWG.
I asked Ms. Kimmie (WWWG's

Legal Beagle) to look into these characters and she informed me that her investigation showed that the majority of these so-called Emil Gurus are actually buyers for various WOOKIE Organizations who had bought vast quantities of Emil's books for the sole purpose of book burning protests they planned and who (according to Ms. Kimmie) were left with surplus after no one showed up for these book burning parties.

So, be warned and don't let these heartless rouges steal your life savings on a con that even Midway Carnies would be ashamed to run on you – as the bearded lady winks at you. Only Little Joey Buyhim and his boy, DeHunter would stoop that low or so I have been told by people close to the Big Guy while they angrily protested that the Buyhim Family would be involved.
